

## MDE Criteria and Benchmarks Established by CDC

### Pap Test Data:

CRITERIA	CDC BENCHMARK
Percentage of first funded Pap tests provided to women never or rarely screened.	$\geq 20\%$
Percentage of abnormal Pap test results with diagnostic follow-up; includes ASC-H, High grade SIL, Squamous cancer, and Abnormal glandular cells results.	100%
Percentage of colposcopies that include a biopsy.	$\geq 75\%$
Percentage of invasive cervical cancers with missing stage at diagnosis.	$\leq 1\%$
Percentage of invasive cervical cancers with unknown stage at diagnosis.	$\leq 10\%$

### Clinical Breast Exam and Mammogram Data:

CRITERIA	CDC BENCHMARK
Percentage of women $\geq 50$ years of age receiving federally funded mammograms.	$> 75\%$
Percentage of abnormal CBE results with diagnostic follow-up; includes Discrete palpable mass, Bloody or serous nipple discharge, Nipple or areolar scaliness, and Skin dimpling or retraction results.	100%
Percentage of abnormal mammogram results with diagnostic follow-up; includes Suspicious of abnormality, Highly suggestive of malignancy, and Assessment incomplete results.	100%
Percentage of invasive breast cancers with missing stage at diagnosis.	$\leq 1\%$
Percentage of invasive breast cancers with unknown stage at diagnosis.	$\leq 10\%$
Percentage of invasive breast cancers with missing tumor size.	$\leq 1\%$
Percentage of invasive breast cancers with unknown tumor size.	$\leq 15\%$

### Pap Test, Clinical Breast Exam, and Mammogram Data:

CRITERIA	CDC BENCHMARK
<b>Screening Test Date to Diagnosis Date Interval</b>	
Total days between screening test with abnormal results and determination of diagnosis.	$\leq 60$ days
Percentage of diagnostic cycles with interval over 60 days.	$\leq 25\%$
<b>Diagnosis Date to Treatment Date Interval</b>	
Total days between determination of diagnosis and providing treatment.	$\leq 60$ days
Percentage of cycles that include diagnosis and treatment with interval over 60 days.	$\leq 20\%$
<b>Follow-up of Abnormal Screening Test Results Demonstrated by Thorough Data Entry:</b>	
Percentage with complete follow-up.	$\geq 90\%$
Percentage lost to follow-up.	$\leq 3\%$
Percentage workup refused.	$\leq 2\%$
Percentage with incomplete follow-up.	$\leq 5\%$
